

CITY OF STACY

MONTHLY ENGINEER'S REPORT

For the April 11, 2023 City Council Meeting

1. 2021 Street and Utility Improvements (307th Street and 311th Street – 193805157 and 193805158)

- Reviewing work on 311th with curb and driveways that was not paid last fall.
- We will coordinate a meeting with all parties once we hear back on dewatering feedback on 311th Street.

2. Stacy General (193804175)

- **Miscellaneous Mapping and Road Conditions** – Staff requested a spring road restriction map representing the 5-ton limit on city streets per ordinance. We prepared a map for staff review and showed county road restrictions. Also, Public Works Staff and I discussed that we would meet this spring to review road conditions following this winter season and propose a plan on improvements.
- **Stacy Outdoor/Indoor Storage** – The city attorney received a letter from the owner's attorney related to the project. We provided additional information to the city attorney for responding to the owner's attorney's letter.
- **Equipment Transport Site Plans** – Road restriction discussions came up at the Stacy Ponds Business Park related to a material delivery to the Equipment Transport building. The roadway section in the business park is designed for heavier traffic. We prepared a note of clarification related to a delivery arriving the week of April 3, 2023.
- **31305 Forest Boulevard Building Permit** – We provided feedback on the building permit for a new shed and follow-up questions related to materials.
