

**TO:** City Council  
**FROM:** Tanya Smolke, City Clerk  
**SUBJECT:** Cannabis in Public Spaces  
**DATE:** May 14, 2024

**Background:**

The former City Council reviewed an ordinance draft prohibiting cannabis use in public spaces last year. It was tabled until last month, then again until the new City Council could review it. The city attorney drafted the original ordinance and the Planning Commission recommended some amendments. Both versions are uploaded for review.

There was noted concern from the council that complaints of cannabis use in public spaces might be reported, but at this time, my office has had none.

**Action Requested:**

If the Council would like to adopt either version of the ordinance, it would need to be posted ten days before the public meeting in which it could be adopted.
