Allen, can you please look to see if you can find a company that may be able to look at fixing this, either by replacing just that bottom piece or the whole slide and get us a quote to present to the council hopefully at the October meeting?

Sharon, can we please put this on the meeting agenda for October to look at either fixing or replacing this equipment? Allen has it roped off right now, but the Lions Club has received several comments on it for safety.

Thank you!

Michelle Hayes
