**Subject:** Peterson Companies wanting access to City of Stacy water supply.

Hi Michelle, The Mayor wanted me to have you add this to ask council at their meeting.

Jon Peterson of Peterson Companies has previously had an agreement with Tanner that they could take water from Stacy Pond's hydrant as needed and would turn in a usage monthly. As operator of Stacy Water system I do not recommend or want any person to take water without city staff being on duty. Water supply security, any damage, or problem with hydrant are all a concern, reported Usage ? I do not recommend any access outside of Public Works hours. This is not a City of Stacy work project so I do not support it.

Michelle, feel free to change wording, basically I'm not supporting free will access to water system.

Thanks, Allen
