**Subject:** Council agenda Items

Two new policies to be enacted at the sports grill. These policies are in relation to the fact we do not allow the manager to be able to consume alcohol on the premise. These policies are to ensure the same type of liability avoidance, as well as maintaining a proper view of city representatives.

1. City Council members will be limited to two alcoholic beverages per day. This is to ensure that the representatives of this city are not put in a liability situation.
2. If any city council member is found to have violated any city policy, state, county or federal laws, while on the premises, will be banned from consuming alcohol at the Sports Grill until their service with the city is completed.

If council approval is needed for these new policies can we add this to the next agenda.  
Thank you.
